1 million

people were provided with security worldwide

3 million

meals were served through Fellowship-supported soup kitchens worldwide

More than 6,000

people made *aliyah* (immigrated to Israel) with The Fellowship

Thank YOU for all your support in 2024!

EMERGENCY SUPPORT FOR PEOPLE UNDER THREAT IN ISRAEL

As Israel is still at war and the threats grow and change each day, you helped The Fellowship provide:

SECURITY IMPACT IN 2024

More than 170 mobile bomb shelters	Were installed near bus stops in Israel
13 armored vehicles	Were purchased for local security teams in Israel
27 ambulances and medical vehicles	Were provided to United Hatzalah and Magen David Adom
10 mobile firefighting trailers	Were purchased for use by first responders
6 hospitals and 3 trauma centers	Were provided with medical equipment, renovations, and expansions
600 emergency shelter kits	Were prepared for citizens living in public bomb shelters

It can take elderly longer to run to shelter

That's why 85-year-old Holocaust survivor Anna says, "I sleep in my clothes so that I'm ready to run if there's another siren."

Thankfully, we are here for Anna with support, food, and care in the meantime. "I almost never leave my home, and I rely on the food I receive from you," she says.

About the Current Situation in IsraelHistoric Million Women
March, Washington D.C.

Giving a voice to Christian supporters of Israel

As the leading organization in Christian-Jewish relations with over 41 years building bridges between members of the two faiths, The Fellowship is uniquely positioned to fortify evangelical Christian support for Israel by educating and empowering Christians to stand for the Jewish people.

Thanks to your generosity this year, The Fellowship continued our outreach efforts to educate Christians about the roots of their faith with the launch of the highly successful *The Chosen People* podcast.

We also participated in the historic Million Women March in Washington D.C. with an hour-long feature on stage, dedicated to prayer for Israel, the return of hostages taken by Hamas more than a year ago, and a specific focus on breaking the spirit of anti-Semitism.

And thanks to you, we were able to launch the *Flags of Fellowship* campaign. We partnered with churches, synagogues, universities, and Christian leaders in a powerful display of solidarity across every state in America. These supporters planted 1,200 Israeli flags on their church grounds – one for every innocent life taken on October 7.

Through these efforts the world knows that Christians and Jews, bound together by shared values, are standing together against hatred and anti-Semitism.

Support for faith & school

Thanks to you, those in need could celebrate their faith through our holiday food deliveries and start the new school year with necessary supplies:

- Passover food deliveries to **214,000 people**
- Food for Rosh Hashanah, the Jewish New year, to **250,000 people**
- School supplies to **35,000 students in need** just before the school year

School supplies for a young survivor

Young Talia felt very fearful after witnessing some of the events on October 7, 2023, and even is undergoing treatment for trauma following the events. When we delivered her school supplies, her mom said, "Thank you for the assistance that is helping us start the school year with a smile."

The International Fellowship of Christians and Jews is the leading nonprofit building bridges between Christians and Jews, blessing Israel and the Jewish people around the world with humanitarian care and lifesaving aid. Through all that we face in the days, weeks, and months ahead, The Fellowship will continue to feed the hungry, shelter and clothe those left with nothing, and provide lifesaving emergency essentials and protection for those on the frontlines.
